<b>Hydraulic Connection Type</b>	JIC 3/4 -16" Male		
<b>Max Pressure</b>	103 Bar		
<b>Working Pressure</b>	97 Bar		
<b>RPM max</b>	<b>Flow max</b>	969 RPM	45 LPM
<b>Torque At Working Pressure</b>	73 Nm		

### Subsea Multipurpose ROV Tool - Cleaning \ Grinding

The IKM Technology Multipurpose ROV Tool is designed and built to be easily handled by standard ROV manipulators.

Along with the tool we can offer a wide variety of cleaning brushes. Designed for cleaning all types of subsea surfaces ranging from soft marine growth to hard marine growth.

A grinding disc can also be mounted for stripping surfaces down to bare metal.

Available for sale or rental.
