# **DVR+ Overlay**

Built for Today's Inspections. Ready for What's Next.

### Works with Any Camera | Synchronized Data Capture | Easy Set Up & Use

A flexible, field-proven system for recording & managing high-quality subsea inspection data. DVR+ Overlay combines recording of up to 6 cameras, metadata overlay, plus optional real-time streaming in one easy-to-use platform. It integrates into existing workflows & is available as a rackmount unit, rugged laptop, or software-only solution, and is ideal for offshore operations & onshore-managed inspections.

#### Multi-Camera Recording & Blackbox

Record up to six simultaneous video feeds with synchronized audio & metadata. A built-in blackbox mode continuously backs up footage for added reliability.

## **Core Capabilities**

- Compatible with IP, HD-SDI & composite cameras
- Supports up to 6 simultaneous video feeds
- Real-time overlay of transparent logo, GPS, depth & sensor data
- Blackbox background recording
- Software-only, rackmount, or rugged laptop deployment
- ► Integration with AIZE, WOOD NEXUS, Coabis, etc.
- Advanced features for Rayfin cameras
- ► Plug-in support for Orphie
- ► Intuitive user-interface and setup in under 1 hour
- Virtual machine compatible
- RTSP LAN video streaming
- Real-time offshore streaming & remote control (optional)

## **Coming Soon**

- Event tagging & logging
- Cloud storage integration
- Archiving & playback

#### **Configurable Overlays & Logging**

Overlay GPS, depth, & sensor data in real time. Configure project-specific overlays & automatically log metadata—including audio annotations.

#### Works with Any Camera

Supports IP, composite, & HD-SDI cameras, including STR Seavision. Enhanced features are available with Rayfin cameras, along with plug-in integration with Orphie.

#### **Remote Operation & Streaming**

Add the option to stream live video & control inspections from onshore. Enables real-time decision-making & reduced crew size offshore.

#### Fast Deployment with Flexible Integration

Deploy as a full system or install the software on your infrastructure. Integrates with platforms like WOOD NEXUS, AIZE, & Coabis—no custom build required.

#### Field-Ready Performance & Support

Fast setup, intuitive interface, and proven reliability in demanding offshore conditions, backed by responsive support when and where you need it.

## Level Up Your DVR with Rayfin Camera Integration

Maximize the potential of your DVR+ Overlay by pairing it with a SubC Imaging Rayfin camera. Access integrated camera, LED, and laser control and 12.3M still images and HD/4k video. Plus, unlock Rayfin Rapid Digital Imaging (RDI) with an adjustable capture rate up to 2Hz. With Rayfin RDI you can capture a series of high-resolution digital stills that can be zoomed in on to inspect the smallest detail or combined for a complete picture of the object being inspected.
